PROFESSIONAL SUMMARY

Penetration Testing and Offensive Security enthusiast with hands-on experience in web application security testing and vulnerability assessment. Skilled in using tools such as Burp Suite, Nmap, Metasploit, SQLMap, and Gobuster. Practical experience gained through TryHackMe, PortSwigger Web Security Academy, DVWA, and OWASP Juice Shop labs, focusing on OWASP Top 10 vulnerabilities. Proficient with Kali Linux and web security testing methodologies. Seeking an entry-level cybersecurity role to apply and expand offensive security skills.

EDUCATION

Bachelor of Commerce (B.Com) – Computer Applications
K.E College, Mannanam | Mahatma Gandhi University
Graduation Year: 2022 - 2025

TECHNICAL SKILLS

Cybersecurity Tools: Nmap, Burp Suite, Metasploit, Hydra, Gobuster, Dirsearch, Nikto, SQLmap, John the Ripper
Web Security: XSS, SQL Injection, IDOR, Broken Access Control, Brute Forcing, Clickjacking, OS Command Injection
Programming: HTML, JavaScript, SQL, Python

PROJECTS

Portfolio Website – Cybersecurity Profile Showcase

- Designed and developed a personal cybersecurity portfolio using HTML, CSS, and JavaScript.
- Created a responsive and user-friendly interface to showcase projects, skills, and certifications.
- Hosted and maintained the website using GitHub Pages.

ESP32 WiFi Penetration Testing

- Performed WiFi scanning, network reconnaissance, and security assessment in a lab environment.
- Conducted password strength testing on authorized test networks using dictionary-based auditing methods

Linux Security Monitoring & Remote Administration Bot

- Developed a Python Telegram bot for remote Linux system monitoring and administration.
 - Implemented security alerts, system status monitoring, screenshot capture, camera access, and remote system control.
-

CERTIFICATIONS

- **Certified Penetration Tester (CPT)** – RedTeam Hacker Academy
 - **Introduction to Dark Web, Anonymity & Cryptocurrency** – EC-Council
 - **SQL Injection Attacks** – EC-Council
-

PROFESSIONAL DEVELOPMENT

Actively enhancing offensive and defensive cybersecurity skills through hands-on labs on TryHackMe, PortSwigger Web Security Academy, DVWA, and OWASP Juice Shop. Continuously learning web application security, penetration testing, vulnerability assessment, and security monitoring through practical exercises and technical documentation

SOFT SKILLS

- Analytical Thinking • Problem Solving • Communication
